G HOUSE KAO YAI .  
Years : 2009.  
Budget :110,000,000 THB.  
Status : Project .

## G Four is a wine importer and distributor of fine wines from all over the world to Asia

G Four was founded in 2001 thanks to the meeting of different minds and personalities, inspired by the sensibility of artist Mario Galvagni, founder of CRAPF (the Center for Research Architecture Picture Poesia) which is an interdisciplinary laboratory, whose aim is to activate and interact with projects concerning the education, information and recording of studies on the aesthetical morphology of habitat. The various trading activities that G Four follows emphasize the politics and image that the company has chosen to promote as its own personal style: the Gestalt Ecology, which is the real glue binding the ideas and activities that are at the heart of G Four.

G Four commenced its operation in Thailand in 2003. *Laura Di Filippo* who has a passion for wine and art is the creator and founder of G Four and the current President. *Laura Di Filippo* is a committee of CRAPF and as a wine lover himself, has developed the concept of WINE in ART by specialising in personalized labels from wine's origin designed by selected artists. G Four produces artistic labels for special needs and customized wine collars designed by the Italian architect *Luca Gogginni* on demand.

3) Illustration Festival 2007 Bangkok

Wine

G Four is proud to provide a unique representation with a wide range of prices and styles from about 40 estates in Italy, France, California, Australia, New Zealand, Chile, South Africa and Argentina. Wine wineries are represented, such as Casanova di Neri, from Tuscany in Italy (awarded the title of "Best Wine in the World" by the Wine Spectator magazine in 2006, with the outstanding accolade of 100 points), the winery Livio Felluga (well known as the best Pinot Grigio producer in the world), and Gaja (internationally acknowledged as one of Italy's greatest winemakers), to name just a few. There are many other wineries, whose wines have been carefully selected and are imported by G Four to guarantee the highest quality, always focusing on the principle that drinking wine is a celebration of life, good food and special company. G Four is willing to work with any genuine wine importer. We have expertise in sourcing rare vintages of the finest old world wines.

Hospitality

G Four is proud to be able to organize a wine experience for you, such as tours to the wineries and wine tasting to meet the talented people who produce the wines. Our producers are glad to receive us with our guests, who can then learn more about the vineyards and taste the wines at their source. Every region has a different culture and it is wonderful to discover the relationship between the land, the wines and the people.
